OBJECTIVE

This policy sets out the guidelines for the payment of untaken sick leave on the cessation of employment for employees engaged by Council prior to 25 January 2002.

BACKGROUND

The policy provides for payment of 50% of untaken sick leave to a maximum of 52 weeks, subject to various conditions, including a minimum of 10 years continuous Local Government service. The policy came into being following Council resolutions in September and November 1982. In October 1990 the Department of Local Government recommended limiting the provisions to existing employees only, however Council at its December 1990 Ordinary Meeting resolved not to alter the policy.

In January 2002 Council resolved that the policy would no longer be applicable to employees engaged from 25 January 2002.
