

RISK ASSESSMENT GUIDELINES

For Commercial Activities on Public Land

Ballina Shire Council's "Management of Commercial Activities on Public Land: Application Guidelines" provides details of the information required to be lodged with a Commercial Activities Licence Application.

Applicants lodging a Commercial Activities Licence Application are required to "Prepare, submit for approval and adhere to a documented *Risk and Safety (Operations) Management Plan.*

An essential component of a Risk and Safety (Operations) Management Plan is a *Risk Assessment.*

A **Risk Assessment** must cover the whole operations of your activity and take into account:

- (a) the identification of all potential hazards posed by your activity; and
- (b) the likelihood of consequences / outcomes of these hazards; and
- (c) what is the potential risk of the hazard and appropriate control of identified hazards, i.e. what needs to be done to eliminate or control the risk e.g. first aid, emergency response and evacuation plan.

To complete a Risk Assessment you can either:

- 1. Complete the following form, or
- 2. Prepare your own risk assessment.

Your commercial activities Risk Assessment is to be lodged as part of your application for your commercial activities licence.

RISK ASSESSMENT

Prepared by:	Commercial Activity:	Date:
Commercial Business Name:		
Commercial Activity Locations:		
Equipment used in Activity: (E.g. equipment, materials, livestock, machinery)		

IDENTIFY ALL HAZARDS, POTENTIAL RISK OF HAZARD AND PROPOSED CONTROLS TO ELIMINATE RISK FOR YOUR COMMERCIOAL ACTIVITY This is to cover all personnel, the public, environment, equipment/machinery and property.

What are the HAZARDS?	Why is it a HAZARD? What could happen?	Level of potential risk of HAZARD. (use 'Risk Assessment Matrix')	Proposed Solutions. (include both short & long term solutions)	By whom
Example: Beach walker trodden on by horse and rider	Could result in bruising and/or broken bones to pedestrian.	Likelihood: Rare Consequence: Major Risk = Medium	Site induct students, keep horses clear of walkers and other beach users, only walk horses, guide horses all the time, stay alert and aware.	Instructor and students

Insert an additional page if insufficient space for all hazards.

RISK ASSESSMENT MATRIX

WHAT IS THE POTENTIAL RISK OF THE HAZARD?

- Select a likelihood and a consequence for the hazard on the RISK MATRIX using the definitions to assist.
- Determine your risk level by joining your likelihood and consequence for the hazard on the matrix i.e. low, medium, high or extreme.
- Write your potential risk of each hazard on the form.

	CONSEQUENCE				
LIKELIHOOD	Insignificant	Minor	Moderate	Major	Catastrophic
Almost Certain	Medium	High	High	Extreme	Extreme
Likely	Medium	Medium	High	High	Extreme
Possible	Low	Medium	High	High	High
Unlikely	Low	Low	Medium	Medium	High
Rare	Low	Low	Medium	Medium	High

Likelihood	Rare	Only ever occurs under exceptional circumstances
	Unlikely	Conceivable but not likely to occur under normal operations; no evidence of previous incidents
	Possible	Not generally expected to occur but may under specific circumstances
	Likely	Will probably occur at some stage based on evidence of previous incidents
	Almost Certain	Event expected to occur most times during normal operations
Consequence	Insignificant	First aid only required
	Minor	Minor medical treatment with or without potential for lost time
	Moderate	Significant injury involving medical treatment or hospitilisation and lost time
	Major	Individual fatality or serious long term injury
	Catastrophic	Multiple fatalities or extensive long term injury
